

Searles®
Palm Food

SEARLES® PALM FOOD is a blend of organic and inorganic fertilisers plus essential trace elements, which combine to aid healthy root, stem and leaf growth. SEARLES® PALM FOOD is suitable for a wide range of both native and exotic palms, ferns and cycads. It can be added into the growing media prior to planting or added to the surface for established plants.

* If the soil is low in organic matter, use 5 IN 1® Organic Fertiliser or Searles Premium Organic Compost to boost humus and organic matter content in the soil.

DIRECTIONS FOR USE

Read detailed Health Warning below before opening and using product.

PALMS & CYCADS

GARDENS

DIRECTIONS

Apply 200g (1 cupful) per square metre. Fork or hoe into the top 5cm of soil, being careful not to damage any surface roots. Keep fertiliser at least 20cm from the stem or trunk of plant. Water well before & after application.

WHEN TO APPLY

Every 6-8 weeks during main growing season (Spring through to Autumn).

POT PLANTS

Sprinkle onto moist potting mix surface (as per chart below). Keep away from trunk or stem of plant. Water well before and after application.

POT DIAMETER	APPLICATION	WHEN TO APPLY
20cm (8")	8g 2 Teaspoons	Every 6-8 weeks during main growing season (Spring through to Autumn).
25cm (10")	16g 1 1/2 Tablespoons	
30cm (12")	30g 3 Tablespoons	
40cm (16")	50g 1/4 Cup	
50cm (20")	100g 1/2 Cup	

FERNS

GARDENS

50cm (20")	50g 1/4 Cup	

HEALTH WARNING

HAZARDOUS

COMPOSTS, POTTING MIXES AND OTHER ORGANIC GARDENING MATERIALS

This product is made from organic materials, and may include composted pinebark, and contains living micro-organisms, including bacteria, fungi and protozoa. May also contain mineral and fertiliser additives.

RISK: Inhalation of dust and/or liquid mists may irritate, inflame or sensitise the nose, throat and lungs resulting in illnesses ranging from hayfever or asthma, to pneumonia (e.g. Legionnaire's disease) or pneumonia-like diseases. Direct contact with this material or its dust and/or liquid mists (bioaerosols) may cause skin irritation (dermatitis), and skin or eye infection or irritation. People particularly at risk are the elderly, those suffering from asthma or allergies, and those whose immune defence systems are compromised. All people working with these and other landscaping and horticultural products should ensure that they are adequately protected from Tetanus.

SAFETY
 • Avoid contact with eyes and skin.
 • Avoid breathing dust and/or liquid mist (bioaerosols).
 • When using product, do not eat, drink or smoke.
 • Avoid eating, ingesting or swallowing product.
 • Wear suitable protective clothing and standard duty gloves (AS/NZS 2161:2).
 • If exposed to dust and/or liquid mists, also wear dust resistant eye protection (AS/NZS 1336) and particulate respirator (AS/NZS 1715 and 1716).
 • Wash thoroughly immediately after handling.
 • Wash work clothes regularly.
 • Clean up by wet sweeping or vacuuming.
 • Store this product in a cool location.

FIRST AID
Swallowed: Do not induce vomiting. Immediately rinse mouth with water. Give several glasses of water to drink. Seek medical attention if any abdominal symptoms.
Eye: Hold eyes open and flush eyes thoroughly with plenty of water for 15 minutes. In all cases of eye contamination it is a sensible precaution to seek medical attention.
Skin: Wash skin thoroughly with mild soap and water. Remove and wash contaminated clothing before re-use. If irritation occurs, seek medical advice.
Inhaled: Remove to fresh air. Seek medical attention for persistent skin, eye or respiratory symptoms.

MANUFACTURER: J.C. & A.T. Searle Pty Ltd
