HOW TO USE

Searles Flourish should always be dissolved in water before applying. Apply to plants regularly via watering can or hose application for premium results. Apply over foliage and soak around plant roots for maximum results.

Pots & Containers

3 Teaspoons to 10 Litres

Soak potting mix and wet foliage every 7-14 days from early spring through to late autumn

Fruit Trees

6 Teaspoons to 10 Litres
Coverage: 4 sq.metres (one tree). Every 7-14 days
from early spring through to late autumn.
For large trees, apply 18 Litres per tree

SAFETY DIRECTIONS

NOT FOR PET OR HUMAN CONSUMPTION

WEAR MASK WEAR MASK & GOGGLES WASH HANDS AFTER USE

Precautions: To avoid damaging plant foliage, do not apply when maximum temperature is expected to reach over 30°C. Do not apply when soil is dry and plants are suffering from moisture stress. Product should always be dissolved in water before applying. When foliar feeding, avoid wetting flowers.

Storage: Store in a dry place away from direct sunlight. Once opened, re-seal unused portion in a resealable bag or container after each use to prevent moisture entering product. Keep out of reach of children & pets.

This cardboard carton is recyclable, biodegradable and compostable. Please dispose of this packaging thoughtfully.

PLASTIC BAG Check with your local recycling service for suitability.

Fruit, Citrus & Berry
