**DIRECTIONS FOR USE**

1. Shake bottle well before use.
2. Remove two-pinned plug from the top of the hose applicator (A) and turn on tap. (At this stage, only water will be sprayed.)
3. Connect hose to applicator (B) and turn on tap. (At this stage, only water will be sprayed.)
4. When ready to apply, place your finger over the small hole (C) on the side of the applicator.
5. The product will now be drawn out of the container and diluted with the correct ratio of water from the hose.
6. Keep your finger over the hole and apply spray evenly over plants and gardens using a sweeping movement back and forth.
7. Replace the two-pinned plug after use.

**NOTE:**

1. When foliar feeding, wet plant foliage and avoid wetting flowers.
2. Avoid foliar feeding during the heat of the day and in direct sunlight, particularly when temperatures exceed 30°C.
3. At times, some sediment of product may settle to bottom of bottle. Shake well before and during application, discard any residue sediment.

Manufactured by JC & AT Searle Pty Ltd.  
4914 D'Aguilar Hwy, Kilcoy, 4515, Aust. PH (07) 5422 3000  
www.searlesgardening.com.au
